Chip Inductors for Power Applications

Our Chip-Power Inductor FPS-Series 1008, 1212, 1616, 242408 and 242418 designed with a high Flux density Ferrite Core. Small footprints 3x3, 4x4, 6x6mm and flat profile. The Inductance range is from 0,5µH to 220µH. Rated Current up to 6.5A. The Models are magnetically shielded with a newly developed Ferrite-Epoxy resin. This Inductors provide good solderability with lead free tinned Terminals and are RoHS compliant.

Applications

Suitable for circuits where high current saturation is critical. When small size matters, only 1.5mm and higher profile for DC/DC converters, for example in portable devices. Backlight for Tablet Displays

Technical Data

L – Value (rated inductance)	Measured with E4980AL LCR meter at frequency fL
SRF (min)	Measured with E4991B
DCR (max)	Measured at 25°C
Rated DC Current	Irms based on temperature rise, determined at the point where the temperature rise does not exceed 40°C typ above the ambient temperature of 25°C Isat Current based on inductivity drop of 30% related to the unloaded inductivity
Operating Temperature	-40°C to +125°C (including component self-heating)
Moisture Sensitivity Levels (MSL)	MSL Level 1, indicating unlimited floor life at ≤ 30°C / 85% relative humidity
Surface Finishing	Flat top for perfect pick and place assembly
Pad Metallization	Tin as top layer
Wire Termination	Spot welding covered with tin layer
Recommended soldering method	Reflow

Technical Data & Packing Spec

Ordering Code

Example: 1212FPS-1R0X-01

1212 (Case Size) **FPS** (Core Type) **-** **1R0** (Inductance Value) **X** (Tolerance) **-** **YY** (Packing Code) ➔ **1212FPS-1R0M-01**

Case Sizes - 1008, 1212, 1616, 242408, 242418
Core Type - FPS (Ferrite)
Tolerances - M (20%), N (30%)
Packing Code - 01 (Taped / Reel)

Packing Specification
