

To all FASTRON Customers

30th July 2007

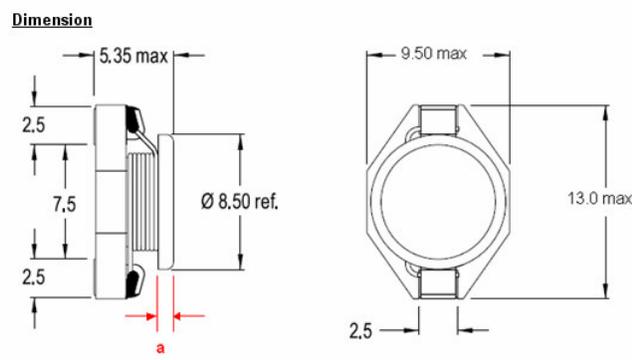

Ref no: 000207

**Concerning Part Name:** All PISM models

**Product Type:** Power Inductor

**Classification of Change:** Ferrite core material and dimension

**Description of Change:** The core material changed to a more robust ferrite material and dimension "a" has become thicker.

	Before improvement	After improvement
Dimension "a" (typ.)	0.75 mm	0.90 mm

**REASON:** To improve the stability and strength of the ferrite core.

**RESULT:** Strength test before change: Average 27.4N  
 Strength test after change: Average 54.2N

**Expected Influence:** No influence on electrical parameters.

**Product Identification:** Not applicable

**Product Availability:** Effective from week 36 onwards.

**Prepared by:** BG Ng
